FIRE - POWER™

"One Tool - One Rescue - One Life"

Used and endorsed by the 1st Response Team of America in cooperation with The Weather Channel™

Fire - Power™ is the one tool that will forever change the way you will respond! In developing the ultimate rescue tool (EMI) has combined seven essential lifesaving functions in one tool. Fire - Power™ is a pliers, cutter, gas shut off tool, pry bar, spanner wrench, window punch, and a seat belt cutter. The spring loaded cushioned hand grips fit comfortably in your hand and allows the rescuer to cut and grasp with ease. It's unique locking clip secures the tool and allows for stability and accurate performance. Fire - Power™ was designed by all 1st Responder personnel in emergencies ranging from firefighting to auto extrication. Made from high carbon steel it is approximately 10½" in length and weighs 26oz.

LIFESAVER PLUS™ SEAT BELT CUTTER

LIFESAVER PLUS™ SEAT BELT CUTTER

(EMI) Introduces its newly redesigned Lifesaver Plus seat belt cutter. The Lifesaver Plus features a 4-blade cartridge housed inside the body of the cutter, with easy access to quickly change blades. We also have kept our popular built in O₂ wrench. The Lifesaver Plus cuts quickly through restraining belts, clothes, etc., faster and safer than scissors. The cutter is easy to grip, even while wearing gloves, and is made with high impact plastic with a surgical stainless blade. Lightweight, rugged and durable, it is approximately 6³/₄" x 1¹/₄". Replacement cartridges are available.

#4002 LIFESAVER PLUS™ SEAT BELT CUTTER

#4003 LIFESAVER PLUS™ REPLACEMENT CARTRIDGE

SEAT BELT CUTTER

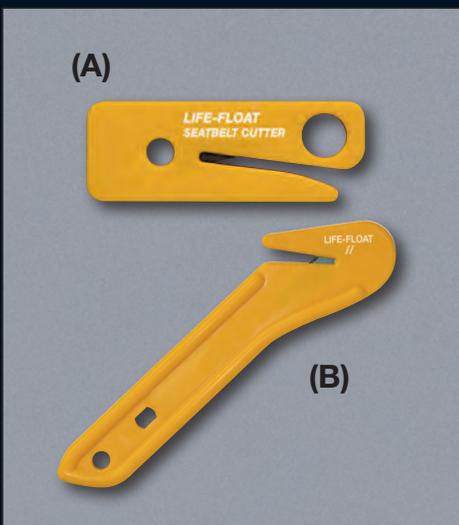

LIFESAVER™ SEAT BELT CUTTER

LIFESAVER™ SEAT BELT CUTTER features hard impact plastic • Cuts through seat belt and other material QUICKLY, EASILY AND SAFELY • Cuts through seat belts 100 times faster than scissors • Hardened stainless steel blade • Approximately 4³/₄" x 1³/₄" • Used by all rescue personnel • Fits easily into EMI's 1st Response Holster™.

#4000 LIFESAVER™ SEAT BELT CUTTER

LIFE-FLOAT™ SEAT BELT CUTTER

LIFE-FLOAT™ SEAT BELT CUTTER

(EMI) introduces the first and only seat belt cutter that can float. Life-Float™ and Life-Float II™ cutters are made of a buoyant PVC plastic. The blades are stainless steel to prevent rust or corrosion. Both styles cut through seat belts and other material quickly, easily and safely, and are excellent for water related rescues and emergencies. Life-Float II™ measures 4³/₄" x 1³/₄". Life-Float II™ with its built in O₂ wrench measures 6³/₄" x 1¹/₄".

QUIK-PIK™ / XTRACTOR™ AUTO RESCUE KIT

(A)

SHOWN ACTUAL SIZE

(B)

(A) QUIK-PIK™

"Quick - Easy - Practical"

Quik-Pik™ is the fastest yet damage free means of opening residential or office interior doors with the 'key-in-the-knob' locks. Also it is used in fire towers to slip spring latch locks. The practical design makes the Quik-Pik™ work from either side of the door. If the door opens inward; you insert the Quik-Pik™ in the back of the molding stop and retract the latch. For doors that open towards you, Quik-Pik™ is slipped in from above or below the latch point and jiggled and pulled to retract the latch. A protective sleeve is added for safety when not in use.

#452 QUIK-PIK™

(B) XTRACTOR™ Auto Rescue Kit

"Quick - Easy - Practical"

Gain quick and easy access to all trapped victims with EMI's Xtractor™ Auto Rescue Kit. All tools stored conveniently in our 1st Response Holster. An essential first-on-the-scene kit for all rescue personnel. Length 7" x 3 1/2" x 3/4". Weighs approximately 9oz. The Xtractor™ kit includes:

- 1st Response Holster
- Quik-Pik™
- Seat Belt Cutter
- Window Punch
- Trunk Key

FIRE/RESCUE GEAR BAGS

FIRE/RESCUE GEAR BAGS

(A) GEAR BAG

Keep your response gear organized and accessible. Made of heavy duty 1000 Denier nylon. The main compartment has a two way zipper for access from three sides. Has strong 2" wide carrying handles. An outside pocket is ideal for additional storage. Also an ID window is featured on the top side of the bag. Comes standard red with maltese cross imprint on both sides. Size 23"L x 13"W x 12"H.

(B) STEP-IN GEAR BAG

A different but practical concept in gear bags. The step-in gear bag allows you to keep your boots upright making it easy to step into the boots and bunker pants. This bag has all the same features as our regular and extra-large gear bags. It also has an inside pocket for storing hoods, gloves, etc. Standard red with maltese cross imprint on both sides.

Size 15½"D x 18½"W x 20"H.

(C) EXTRA-LARGE GEAR BAG

This bag has all of the same features of our regular size bag but just much larger! Just like our regular gear bag, the extra large style can hold boots, bunker pants, coat, and helmet plus extra room to spare. Comes standard red with maltese cross imprint on both sides.

Size 24"L x 16"W x 18"H.

(D) DELUXE GEAR BAG

(EMI) Introduces its newest and largest Gear Bag - The Deluxe Oversized Gear Bag. This five compartment bag has ample room for all of your extra equipment and gear. The extra large side pocket measures 16" x 17" x 8" and can hold a firefighters helmet with ease, while the right compartment can hold a scuba mask. The red bag comes standard with a maltese cross imprinted on both sides, reflective yellow trim, an adjustable shoulder strap and an ID window.

Size 32"L x 17"D x 16"H Weight approximately 46oz.

AIRWAY/TRAUMA RESPONSE SYSTEM™

"The Complete Airway/Trauma Pack"

AIRWAY / TRAUMA RESPONSE SYSTEM™

AIRWAY/TRAUMA RESPONSE SYSTEM™

EMI's Airway/Trauma Response System™ is designed for carrying oxygen, airways and intubation and trauma equipment all in one. Lightweight, durable, rugged and compact, it is made of 1000 Denier nylon. All of the packs walls are encircled with a layer of ¼" rigid foam rubber then covered with an additional layer of softer foam for extra protection. A detachable laryngoscope/airway panel fits securely by velcro into the lid of the pack. The pack also has five clear removable field packs (two large, 11"L x 3"W and three small 5½"L x 3"W) and two additional zippered mesh pockets. There is also extra storage in the large front outside zippered compartment. "C" or "D" tanks are secured by two

velcro straps and buckles. A drawstring oxygen carrying bag with web carrying handles is also included. The pack has a Star of Life reflective emblem on front and yellow reflective trim on the front and the sides. Measures 23"L x 12"W x 9"H.

Pro Response™ Deluxe Oxygen Bag

Pro Response™ Deluxe Oxygen Bag

EMI's Pro Response™ Deluxe Oxygen Bag was designed so the 1st Responder has ample space for all their oxygen and airway equipment. This rugged and versatile bag can not only carry a D O2 Cylinder in its spacious main compartment, but is also designed for regulators, diagnostic equipment and airway supplies. The oxygen cylinder is secured with hook and loop fasteners. It has two full-length side pockets and one end pocket. It is also trimmed in high visibility reflective stripping. Because this bag is so spacious, the first responder can also convert it into a basic or advanced trauma kit. The oxygen bag with its padded shoulder strap and comfortable carry handles, measures 27"L x 12"W x 10"H.

#864 PRO RESPONSE DELUXE OXYGEN BAG

OXYGEN RESPONSE BAG

OXYGEN RESPONSE BAG

The Oxygen Response Bag is designed for the rescue squad or the First Responder. Made of 1000 Denier nylon, it is fully padded with high density foam to protect the oxygen cylinder and regulator. Inside the bag is three open pockets and three closeable pockets for accessories and also a series of elastic airway loops. It has a 2" wide carrying handle and for extra ruggedness a vinyl coated bottom. Comes complete with a rifle sling style strap with reinforced steel rings and hooks. The bag has reflective trim on both sides. Measures 9½" diagonally x 21" length • Weighs 2 lbs.

#844 OXYGEN RESPONSE BAG, ORANGE

DELUXE INTUBATION CASE

DELUXE INTUBATION CASE

EMI's Deluxe Intubation Case has an attache - style zippered design. It opens quickly and lays flat for access to blades, handles, ET tubes, etc. The case has seven clear pouches and several elastic loops to hold all your airway equipment firmly in place. It is constructed of 1000 Denier nylon cordura with high density foam padding. The navy case has a Star of Life reflective emblem on the front and yellow reflective trim on the front and back. Measures 15" L x 1" W x 11" H (closed).

CHILD RESPONSE KIT

CHILD RESPONSE KIT

Treating pediatric/child emergencies takes not only extra care and compassion, but also the proper supplies and equipment is needed for the appropriate treatment. Flat Pac's unique design when opened allows it to lie flat, exposing all equipment at a fast glance. One side of the cordura bag has six gathered deep pockets, while the other side has one extra-large pocket, five other smaller pockets and many elastic loops to keep all your supplies well organized. Each kit also has a plush animal toy to comfort your child patients. The Flat Pac has yellow reflective trim a Star of Life emblem on both sides. It measures 16" L x 9½" W x 5" D. Weighs approximately 3 lbs.

The Child Kit includes:

BANDAGES AND DRESSINGS

- 1 - Triangular Bandages
- 1 - 1" Adhesive Tape
- 4 - 2" x 3.5" Adhesive Bandages
- 2 - 3" Sterile Conforming Bandage
- 1 - 3" Elastic Bandage
- 2 - 5" x 9" Abdominal pads
- 10 - 3" x 3" Sterile Pads
- 1 - Burn/Blood Stopper Bandages
- 1 - Box of ¾" by 3" Child Bandages

FLASHBACK TRAFFIC CONTROLLER LIGHT BATON

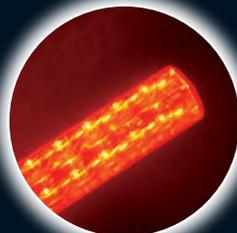

"Taking the Congestion out of Traffic"

The Flashback Traffic Controller quickly gets the attention of motorists which allows for safe and easy traffic control. The highly visible steady on green LED lights ensures safe traffic flow while the flashing red led lights gets immediate attention for stopping motorists. The three stage switch provides not only green and red mode but also an endcap flashlight. The 20 LED bulbs can be seen for up to 1 mile and can last approximately ninety (90) hours on four AA batteries. The light baton also has a built in magnetic tailcap, is made of high impact ABS plastic, has a non-slip textured grip, built in belt clip and wrist strap. The Flashback Traffic Controller is essential for keeping personnel safe and visible during traffic control. It measures 13½" long. Weighs approximately 1lb.

FLASHBACK THREE™ LIGHT BATON

Still Brilliant – Yet Basic and Economical

The new Flashback Three™ Light Baton provides emergency service personnel with the same superior performance of the Flashback Five™ but in a basic three mode system. The three stage switch provides a flashing light, a steady light and an endcap flashlight. Now available in your choice of red, blue or amber lights. The 20 LED bulbs in each baton can be seen for up to one mile and can last up to approximately ninety (90) hours on three AA batteries. The Flashback Three™ can be used as a signal light, warning light (with its built in magnetic tailcap) or a dash/deck light. Its weather resistant body is made of high impact ABS plastic and also has a non-slip textured grip with a built-in belt clip and wrist strap. Ideal for all Police, EMS, Fire and 1st Responder personnel. It measures 13½” long. Weighs approximately 1lb.

FLASHBACK FIVE™ LIGHT BATON

"The Brilliance of a Lightbar – The Size of a Flashlight"

FLASHBACK FIVE™ LIGHT BATON

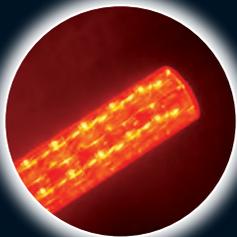

The Flashback Five's advanced LED light and reflector technology makes it the brightest and most powerful signal light available.

Its five stage switch provides red, blue, red/blue alternating, red/blue blend and a flashlight selection. The twenty brilliant LED bulbs can be seen for up to one mile and provides three hundred hours of continuous flashing! The Flashback Five™ can be used as a signal light, a vehicle warning light (with its built in magnetic mount tailcap – placement can be anywhere on vehicle) or as an "on-the-scene" dash or deck light. Flashback Five's 360° of light dispersion ensures your visibility day or night, or in rain, fog or snow. Its weather resistant body is made of high impact ABS plastic and operates up to seventy-two hours on four AA batteries. Flashback Five™ also has a non-slip textured grip with a built-in belt clip and wrist strap. Ideal for all police, EMS, fire and 1st responder personnel. It measures 13½" long. Weighs approximately 1lb.

FLASHBACK FIVE™ LED FLARE KIT

"The Most Intense LED Safety Flare Available"

FLASHBACK FIVE™ LED FLARE KIT

Safer than flares – the Flashback Five™ LED Kit is also lightweight, compact and portable. It is ideal for all emergency scenes and medevac landing zones where warning lights are crucial. The Flashback Five™ which doesn't emit fire, toxic chemicals or fumes like a flare is water resistant and can be used safely in hazardous areas! Each Flashback Five™ comes with its own 8" weighted rubber disc to keep it securely on the ground. A strong magnet insert in the disc holds the Flashback Five™ firmly in place. The padded cordura case keeps the LED flares and discs protected and organized. With a blue, red and blue red combination or a red, amber and red amber combination, Flashback Five™ LED Flare Kit is applicable for all EMS, fire and police emergencies as well as traffic control. The Flashback Five™ LED Flare measures 13½" in height. The case also has reflective trim and measures 15"L x 2"W x 11"H. Please specify two, four or five pack kits.

FLASHBACK FIVE™ XL

FLASHBACK FIVE™ ILLUMINATOR LIGHT BATON

(A)

(B)

(A) FLASHBACK FIVE™ XL LIGHT BATON

“Extra Long for Extra Visibility”

The Flashback Five™ XL features the same functions and designs as the original Flashback Five™ but now comes in an extra long length. The handle measures 5” long with an overall length of 18¾” and weighs approximately 1 lb. It is not recommended for horizontal surface mounting. For complete description and details see page 28.

(B) FLASHBACK FIVE™ ILLUMINATOR LIGHT BATON

“Intense, Instant, Illumination”

Now with Flashback Five™ illumination mode the responder can instantly have 360° of constant brilliant white light. The twenty white LED bulbs make the Illuminator ideal for applications where a search area, warning area or extrication area needs instant and brilliant light. The Flashback Five™ Illuminator Baton also has red, blue, red-blue blend, and red-blue alternating settings.

LIFESAVER™ CPR MASK

“The 1st Responders Choice”

LIFESAVER™ CPR MASK

When it comes to quality, durability and performance, the Lifesaver™ CPR Mask is the 1st responders choice. The mask features a replaceable one-way non-rebreathing valve with a biological filter. The Lifesaver™ CPR Mask has a clear, odorless dome for patient monitoring. The soft, flexible mask conforms easily to the faces of adults, children and infants and remains pliable even in extreme temperatures. The Lifesaver™ CPR Mask requires no assembly and instantly opens to a ready position. It also comes with an oxygen inlet valve, head strap and water resistant hard plastic case. (EMI) now offers the Lifesaver™ CPR Mask in two different styles.

LIFESAVER™ CPR MASK KIT

Kit includes:

- 1 - Lifesaver™ CPR Mask
- 1 - Pair Nitrile Gloves

BITE STICK

BITE STICK

The emergency bite stick allows the rescuer to depress the tongue and provide an airway for seizure patients. This non-toxic unbreakable stick has a mid channel allowing for a suction catheter. Each bite stick is individually poly-bagged.

#676 BITE STICK (10 pack)

EMERGENCY MEDICAL IMMOBILIZER™ (EMI Rolled Splint)

"The Splint of Professionals"

EMERGENCY MEDICAL IMMOBILIZER™ (EMI ROLLED SPLINT)

The Emergency Medical Immobilizer is a flexible foam padded splint with multiple applications. A thin core of aluminum alloy sandwiched between two layers of foam makes it extremely pliable. It can be molded, folded and shaped to any desired configuration to support fractures and injured limbs. The EMI splint is reusable, lightweight, water proof and radiolucent. It's highly visible orange color cuts easily with shears and is not affected by extreme temperatures and measures 4¼" x 36". The EMI Splint - "The Splint of Professionals."

#414 EMERGENCY MEDICAL IMMOBILIZER™ (EMI ROLLED SPLINT)

NEW

EMERGENCY MEDICAL IMMOBILIZER™ (EMI Flat Splint)

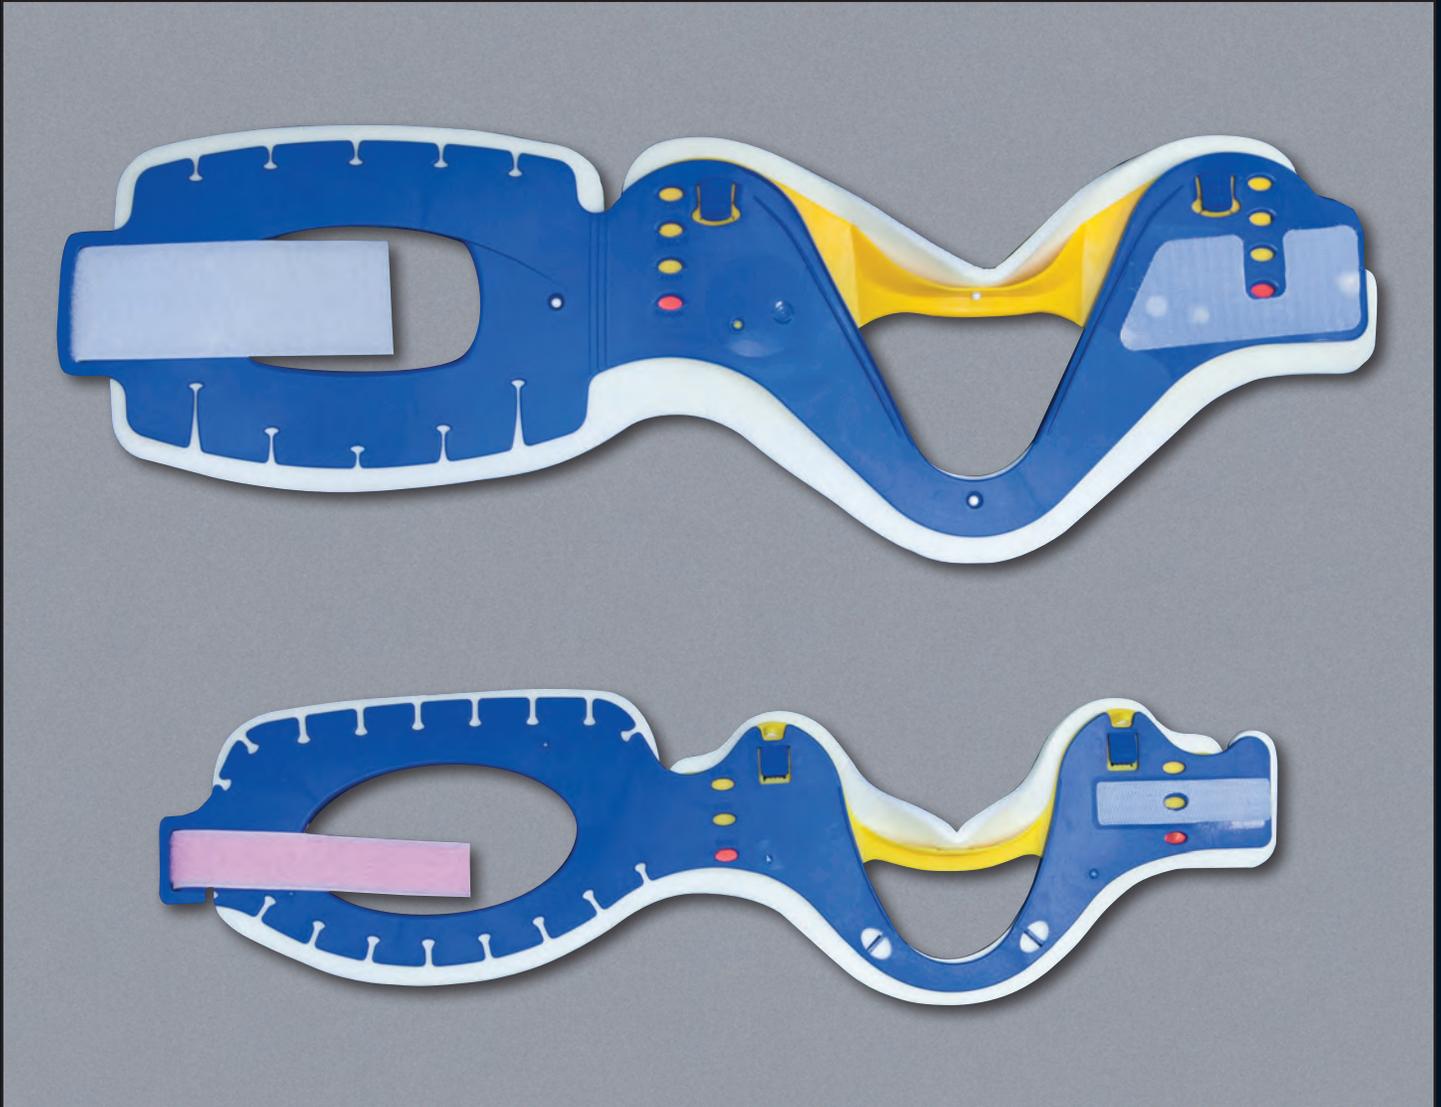

EMERGENCY MEDICAL IMMOBILIZER™ (EMI FLAT SPLINT)

The EMI Flat Splint is the ideal splint where limited space is available. It is comfortable and easy to mold for support of fractures or injured limbs. The EMI Flat Splint is built from a thin core of aluminum sandwiched between two layers of closed cell foam. It comes in a four-fold style and when folded it measures 4¼" x 9"L x ¾" H. When unfolded it is 4¼" W x 36" L.

#415 EMERGENCY MEDICAL IMMOBILIZER™ (EMI FLAT SPLINT)

THE IMMOBILIZER ADJUSTABLE CERVICAL COLLAR

THE IMMOBILIZER ADJUSTABLE CERVICAL COLLAR

The Immobilizer Adjustable Cervical Collar is lightweight, strong and flexible yet easy to apply. It can be adjusted at four different positions (no-neck, short, regular, tall) insuring the patient is always fitted correctly. The padded inner layer makes it comfortable for the patient. The collar includes a large posterior and anterior opening to allow the rescuer palpation of the spine as well as access to the tracheal and carotid areas. The Immobilizer Cervical Collar can easily be penetrated by X-ray, MRI, or Cat scans and is compatible with spine boards and other head immobilizers. The child collar has all the same features, but has three adjustable positions (mini, mid, pedi).

#416 IMMOBILIZER CERVICAL COLLAR (ADULT)
#418 IMMOBILIZER CERVICAL COLLAR (CHILD)

THE RESCUER™ EMERGENCY KNIFE

THE RESCUER™ EMERGENCY KNIFE

The Rescuer™ Emergency Knife has an anodized aluminum body with a convenient belt clip and thumb pulls. This lightweight knife has a stainless steel serrated blade with a rounded tip for safety. It is also equipped with a window punch and seat belt cutter. The Rescuer™ Knife comes with your choice of either a Star of Life or Fire Department emblem inlay. The blade is 3" in length and the knife closed is 4½". It weighs approximately 3oz and comes complete with a nylon ballistic holster which can be worn either vertically or horizontally.

#430 THE RESCUER™ EMERGENCY KNIFE - STAR OF LIFE EMBLEM

#432 THE RESCUER™ EMERGENCY KNIFE - FIRE DEPARTMENT EMBLEM

FIRST-IN™ RESCUE KNIFE SET

"FOR THE FIRST-ON-THE-SCENE RESCUER"

FIRST-IN™ RESCUE KNIFE SET

With EMI's First-In™ knife and window punch the first responder can quickly gain access and remove a trapped victim. The First-In™ Knife features a serrated blade and blunt tip to assure safety while cutting seat belts, clothing, etc. The kit comes complete with a nylon cordura belt holster.

It has a serrated blade with a black handle, side rubber grips, and a stainless steel belt clip. The blade measures approximately 3". Length closed 4¼". Length opened 7¾". Weight 2.5oz.

#426 FIRST-IN™ RESCUE KNIFE

EXPLORER™ LOCK KNIFE

EXPLORER™ LOCK KNIFE

The Explorer™ Knife's top quality assures it to be more durable and stronger than most pocket knives. Made with 440C stainless steel. Explorer™ features: 3½" half serrated blade for cutting • Thumb stud for easy one hand opening • Hard rubber inlay handle for a sure grip • Handy belt clip • 4½" closed • 8¼" open. Weighs approximately 4oz.

#420 EXPLORER™ LOCK KNIFE

THERMAL RESCUE BLANKET

THERMAL RESCUE BLANKET

The Thermal Rescue Blanket is constructed with an aluminized material that reflects back 90% of body heat. Flexible, weatherproof, warm and compact this blanket can fit easily into fanny packs, holsters, shirt pockets, etc. Ideal for shock, hypothermia and most disaster situations. Unfolded approximately 52" x 84".

#668 THERMAL RESCUE BLANKET

12-IN-1 RESCUE TOOL

12-IN-1 RESCUE TOOL

12-IN-1 RESCUE TOOL features twelve tools in one • It weighs approximately 5 ounces yet is only 4" long • Made of hardened stainless steel • Tool includes a pliers, wire cutters, bottle opener, file, Philips Screwdriver, three slotted screwdrivers, large and small cutting blades and can opener • Comes complete with leather type belt pouch.

#8448 12-in-1 Rescue Tool

SHEAR POWER™

“Shear Power - Shear Excellence”

Cuts wire and cables with ease

Cuts seat belts and webbing

Cuts quickly through boots, clothing, etc.

Powerful cutting blades cut tin, aluminum, etc

SHEAR POWER™

Extrication-Rescue-Disasters: Sometimes you just need a little more Shear Power™!

Shear Power™ is the most powerful and sharpest shears in the industry. It has an angled hardened stainless steel blade with a comfortable spring load non-slip rubber handle. The spring action in the shears increases torque without straining your hands. It can easily cut through wire, cable, leather, webbing, etc. Shear Power™ has thumb-operated lock to ensure that the blades are not exposed, and that the handles lock for safety when stored or when not in use. It is approximately 7½" L and weighs 4oz.

STAR-POWER™ ILLUMINATOR

"Brilliant Illumination In The Palm Of Your Hand"

STAR-POWER™ ILLUMINATOR

When instant light is needed, EMI's Star Power will provide you with brilliant illumination in the palm of your hand. By extending Star Power's telescoping body, it instantly illuminates the ten powerful LED lights. When the lights retract into the body the LED's are turned off and protected from breakage, dirt, etc. The ten LED lights provide 160 lumens and are rated for 100,000 hours of life. The flashlight's head, with one LED light, has a separate sealed button switch and can adjust up to a 90° angle to focus light exactly where you need it. Star Power's oval shape (which prevents it from rolling) has a rugged ABS housing and a high-impact-resistant lens. The housing also features a rubberized non-slip grip, making it comfortable and easy to hold. It is shockproof, water resistant and has a strong magnetic base for hands free use. First responders will find Star Power to be ideal lighting for search and rescue, disasters, extrication, etc. It comes in your choice of red, blue or black, measures 7½" L x 1¼" W and weighs approximately 5oz. It is powered by only three AAA batteries (included).

- #882 STAR POWER ILLUMINATOR (RED)
- #884 STAR POWER ILLUMINATOR (BLUE)
- #886 STAR POWER ILLUMINATOR (BLACK)

THE VISION™ LED HEADLIGHT

“Illuminate the Darkness”

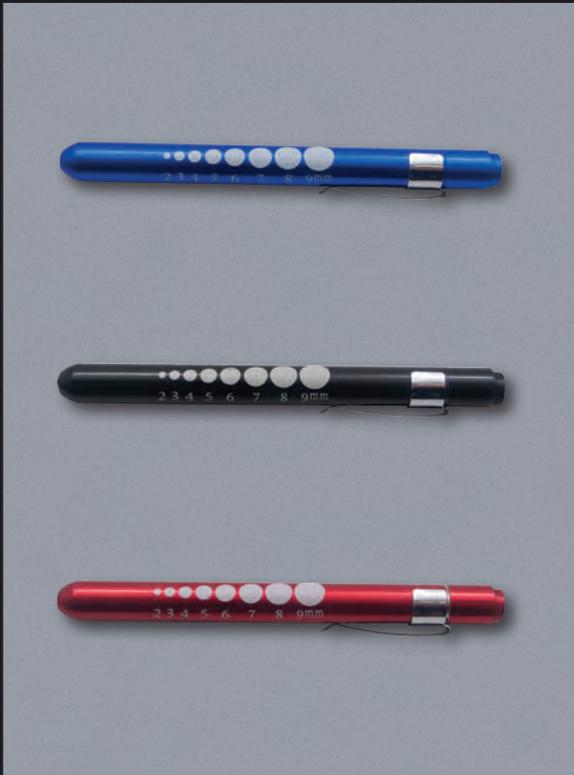

THE VISION™ LED HEADLIGHT

The Vision™ with its sixty lumens of LED light gives you hands free lighting instantly. The brilliant three watt bulb gives the responder a choice of high beam, low beam, or strobe. The lightweight headlamp is made of an aluminum alloy and ABS plastic and has an easy to operate side switch even when wearing gloves. The Vision™ has an adjustable elastic headband and a 90° tilting multi-position head. It's great for search and rescue teams and can be used in all weather conditions. It has 100,00 hours of LED light, weighs 6oz and takes three AAA batteries.

#204 VISION™ LED HEADLIGHT

ULTRA-LIGHT PUPIL GAUGE PENLIGHT

ULTRA-LIGHT PUPIL GAUGE PENLIGHT

#218 BRITE-LIGHT™ 2 PACK (BLACK)

A vibrant nebula with red and purple hues against a starry black background. The nebula's structure is complex, with bright red filaments and a more diffuse purple and magenta glow. Numerous stars of varying sizes and colors are scattered throughout the scene, some appearing as bright white points and others as smaller, dimmer specks. The overall effect is a rich, multi-colored cosmic display.

This catalog is dedicated to the loving memory of
Josephine and Frank
for their guidance, love, and encouragement.

Also, to Precious Parker
who will always have a special place in our hearts.
