PSS Dive

The PSS Dive is a combination of a carrying and buoyancy control device for professional diving use. It can be individually configured from various components, such as the Panorama Nova Dive full face mask and the Secor 7000 pneumatic system. The PSS Dive can be dove with single or double cylinders. The PSS Dive not only offers a high

level of wearing comfort, but is also characterised by extremely high resistance to challenging conditions. This is due to robust materials, such as the 1000 Denier Cordura, and the two-shell construction of the wing bladder. This has a buoyancy volume of 25 liters. Eight stainless steel D-rings are attached to various anchor points for attaching signal/rescue lines, for example. These are designed for rope pull forces of up to 450 lb.

Containment Fill Stations

CFS5.5-3S

Our 5.5 series of containment SCBA/SCUBA fill stations were independently tested to the same rigorous standards and stringent test parameters dictated by NFPA 1901 that our CFSII series was, however in the testing of the 5.5 series Bauer utilized 110 cu. ft. 5500psi SCBA's in lieu of 88 cu. ft. 4500psi SCBA's.

- Complete with cylinder scuff guard, SCBA fill connection, fill hose, and bleed valve.
- Fill control panel.
- Mounting base.
- Bottom venting.
- Hands-free door interlock.
- Ergonomic loading height.

Dräger

Alcotest 5000 Alcohol Breath Device

The Dräger Alcotest® 5000 is a highly reliable breath-alcohol tester that detects the presence of alcohol. This high-speed breathalyzer lets you perform up to 12 tests per minute. Its special non-contact funnel reduces the back-flow of expired air to a minimum, preventing the risk of infection to subsequent test subjects. In addition to roadside checks, the Alcotest 5000 is ideal for large-scale operations, such as entrance checks at work sites, schools, stadiums, entry points to public transport, and airport security checks.

Zodiac Milpro

Grand Raid Inflatable Boats

Designed for extreme environments and heavy loads, Zodiac Milpro™ Heavy Duty inflatable boats are foldable, easy to store and transport. Grand Raid™ boats form the backbone of many small boat fleets and are pretty much unique in their full equipment definition. Their classic design has stood the test of time, and continues to be the backbone of many police, lifesaving and professional user's fleets worldwide. Zodiac Milpro™ proposes the Mark™ 2 and 3 Grand Raid™ boats with a reinforced fabric, intercommunication valve system, a large flow self-bailer and a long shaft transom adapted to new generation engines.

- Heavy duty Duratane fabric and large tube
- Intercommunication valves system

Zodiac Milpro

FC Series Boats

Well known throughout the world as the definitive Special Forces boat, the FC range is used by more elite soldiers and sailors than any other craft worldwide. The FC range combines advanced design and technology with Zodiac Milpro's famous know-how in inflatable boat manufacturing. The hull shape is especially important as it can get a large load on the plane as well as give the pilot unsurpassed maneuverability in various complex and dangerous conditions. Continually being updated for its ever-changing roles, the FC range is Zodiac Milpro™ most recognizable military boat for Special Forces and Commandos.
