Fine Leather Belts and Accessories

Crafted with Pride

In the USA

Boston Leather has withstood the test of time. Since 1938 we have remained committed to the manufacture of everything that we sell. "American Made" means that we understand how our products are made and how they can be expected to perform after being sold. If something does fail we know how to repair it, and make it better.

Leather remains our material of choice. It is the best material for the items that we make. When worn or carried only leather becomes part of you. It is comfortable, long lasting, very strong, and good looking. We take pride in all we do and we appreciate our customers. You will not be disappointed in buying any of our products.

We have chosen to market our products to resellers only. We feel that only they service your needs on a local basis. If you have any questions about Boston Leather, the leather that we use for our products, or how we make them, do not hesitate to call. We will be happy to share what we know.

For updates and new products, we invite you to visit our website at www.bostonleather.com.

Thank you.

DUTY BELTS

Boston Leather's rugged duty belts are made from full grain, 10-12 ounce, English bridle leather, drum dyed at the tannery. The upper layer is laminated and sewn to an additional four ounces of leather. This construction makes a belt that looks good, lasts long, and is capable of comfortably carrying the duty load of an officer. All Sam Browne buckles are solid brass and are standard in a chrome finish. Black or gold finishes available upon request. The leather is available in black with a plain, clarino, or basketweave finish.

Plain and basketweave finishes are also available in Cordovan brown.

Our most popular belts are made in four widths: 1 3/4", 1 1/2", 1 1/4" and 1". They are made with the same quality materials and the same superior craftsmanship as our duty belts, using ten to twelve ounce English bridle leather. **Garrison belts** are available in any size with your choice of finish and buckle. **Lined belts** offer an extra layer of leather stitched in as a lining. **Stitched belts** have decorative, heavy stitching which enhances the look of our standard belts. These belts are rugged, durable and look great. Our **no line belts** have no embossed lines, creating a simple unworked look for casual or dress wear.

American to detail is important while sewing
reflective ribbon into our leather belts.

The feather edge dress belt has an elegant bowed appearance with fine stitched feather edges and a premium buckle. Constructed of three layers of leather, it is designed to withstand the weight of duty gear.

Custom badge specific and generic cases are crafted with pride. Soft leather badge wallets are 2.5 ounces with a luxurious feel and appearance. Their turned edges and lined billfold compartment add an additional touch of quality. Standard cases and wallets retain the durability and level of craftsmanship but with a thicker 4 ounce leather which some officers prefer. Both standard and soft cases available in black or Cardovan brown leather.

K-9 ACCESSORIES

Our professional police K-9 handler leads and collars are constructed with the same quality, craftsmanship and strength as our leather belts and other law enforcement equipment. Boston Leather's high quality leather leads are made tough to withstand the pressure that an enthusiastic dog can generate when on alert. Leather leads are the easiest material on a handler's hands. Boston Leather has the right style and length for any situation you may encounter. All leather K-9 items are made with top grain, drum dyed bridle leather in Cordovan brown. Black leather available upon request.

While leather is our material of choice, we understand that many of our customers are interested in or require synthetic materials. As with our leather products, all items are made by us. We use the best materials available; combinations of high grade nylon, polypropylene, polyethylene, and vinyl, and stand behind them 100%. All woven products are considered Ballistic Weave.
